The Task Order was extended to the end of Sept. so if we carried through to the end of August, I think we would be OK...

With Regards, Steve

Subject: FW: Bristow seed watering

Hi Steve, we've been watering for 30 days at the Wilcox property. The ground is sandy and temperatures are hot so it requires daily watering. Costs to date with local watering subcontractor are roughly \$7500. Please advise how long you would like to keep watering the property. Below is a current photo, landscaper recommends we add some fertilizer too.

Thanks

Evan

It's coming in nice but has a lot of weeds and isn't very thick. I would like to get another 30 days on contract. As well as put some fertilizer down. Thank you!
